

Rhymewatch

Many poems have rhyming words at the end of each line.

This is a technique some poets use to make their poems more catchy and fun.

In "Skywatch," what are some other words that rhyme with the ones Douglas Florian chose?

Directions: In the planets below, write the sets of rhyming words you find in the poem. Then, think of other words that also rhyme and write them on the branches at the side. Add more branches if you think of more words.
